by the RCHM

TCM Clinical Gynaecology & Obstetrics Diploma Course 2010

With Trevor Wing MBRCP MRCHM MBAcC

"What a great course, that far surpasses any other TCM course I have attended. The location and facilities were very good. I would recommend the course to any practitioner wishing to specialise in TCM gynaecology and obstetrics"

Maria Cristina
Madrid, Spain

"Excellent course - a great starting point for a very deep understanding of TCM and Western Gynaecology and Obstetrics"

Luca Fioretta
London, UK

"This course has been one of the best CPD's I have completed. The detail of western medicine anatomy and physiology was excellent. Trevor has been immensely patient and generous with his time and commitment to aid our learning and practice"

Christine Kim
Cambridge, UK

"A truly wonderful course !. Trevor explains very clearly all the different aspects of Gynaecology (Biomedicine and TCM) and makes sure you leave this course confident. This is one of the best courses I have ever taken !."

Martine Cornelissen
Amsterdam, Holland

Course Overview

The course is focused on the treatment of conditions seen routinely in clinic and the skills needed to provide successful treatment outcomes. Great emphasis is given to the correct application of disease diagnosis and pattern discrimination which is at the heart of good clinical results.

Classes are limited to 20 practitioners in order to provide a "tutorial" atmosphere enabling 1-1 questions to be answered during each day of the course.

Every aspect of clinical practice in both conventional medicine and TCM gynaecology is taught in a logical and organised way which strictly follows the PROC government approved curriculum and teaching methods used in TCM Universities in China.

Who the Course is Designed for

Qualified TCM and Chinese Herbal Medicine Practitioners who wish to specialise in gynaecology. Participants need to be proficient in TCM internal medicine, biomedicine, female reproductive anatomy and physiology, and have a good understanding of TCM methods of examination including diagnosis based on pattern discrimination. They should also be fully conversant with the CHM materia medica, CHM formulas and prescriptions.

About Trevor Wing

Trevor is a recognised specialist in TCM and naturopathic treatment of female health conditions, with particular interest in applying scientific research to natural medicine.

Trevor runs a busy private clinic in London where he carries out evidence based research and treats a wide range of gynecological and obstetric conditions.

Trevor graduated with a first class honors degree from LCTAOM London. Trevor has also studied conventional reproductive medicine and holds an MSc in herbal medicine, an MSc in obstetric and gynecology diagnostic ultrasound and a Doctorate in medical imaging.
